

# Tactical Response to Natural Gas Emergencies

Dominick D'Alisera

**Instructors: Jerry Knapp, Chief, Rockland County Hazardous Materials Team  
Daniel Moran, Rockland County Deputy Fire Coordinator for Haz-Mat**

This **FREE** training will address the tactical response procedures for natural gas and propane emergencies. The 4-hour program will combine lecture, facilitated discussions, and interactive exercises. Local gas company representatives will be on hand to answer questions. The program will review the characteristics and behaviors of natural gas and propane and provide information on gas distribution systems. Instructors will discuss the unpredictability of gas leaks, the best practices and standard operating procedures for gas and propane emergencies, gas detection and monitoring devices, and the role of gas meters in addressing emergencies. Other topics will include size up strategies for different types of gas leaks and guidelines for interacting with gas company technicians during incident command. Participants will leave with sample SOPs and training concepts that can be modified for use in their own departments.

***Class size limited to 30 students per site for this free training!***
